

Welcome to Trumansburg Child Nutrition 2020!

I wanted to update families and staff on some of the changes that are happening this year in our School Food program:

- For the safety of all, meals will be served in the classroom for those attending school in person. Meals will also be available for pick-up for those who are attending school at home or attending in the hybrid model.
- For both situations, meals will be pre-ordered online. This will help us give your child meals that better suit their preferences. If you don't have access to the internet, we will help you order meals. We expect the menu and the ordering link will be up on Wednesday, September 9. The link will be on the District website, the School Nutrition website, and the Trumansburg School Nutrition Facebook page.
- Until December 31, 2020, or until the government runs out of money, breakfast and lunch will be offered free to all students.
- That said, we encourage everyone to apply for free and reduced price lunches if their income falls within the range on the chart in the Parent letter, BEFORE the end of December, so we are ready when we switch back to "regular" lunch. Please see the food service website for more information and downloadable forms. Please contact us if you need help with this process or have any questions. For families who are enrolled in SNAP or Medicaid, you should have gotten letters informing you that you qualify for free and reduced lunches.
- We are starting with a menu that offers 8 entree choices, and optional milk, vegetables, and fruit to round out the meal. The menu is posted on our website. We ask that you please order for the whole week by the FRIDAY of the previous week. I hope to transition to ordering each morning in the classroom for those learning onsite, but for now, we need the time over the weekend to get prepared.
- We are going to start with meal pick-up on Monday and Wednesday between 12pm-12:30pm. If you need meals and are unable to pick-up, we will find a way to get meals delivered to you.
- We hope to continue our Farm to School program and source as many foods locally as we can. We are also going to try to use as much compostable packaging as possible. Consider packing silverware for your child in a washable pencil case to avoid using plastic utensils. Every bit helps.

All this could change. We appreciate your patience and welcome your questions and suggestions during these challenging times at rhanson@tburg.k12.ny.us.

Sincerely,

Rosemarie Hanson

Trumansburg CSD
School Lunch Specialist

Breakfast Menu
